Symposium Special Issue Submission Guidelines

All presenters at the IMBeR West Pacific Symposium are kindly entitled to submit manuscripts for the special issue of the *Deep-Sea Research Part II: Topical Studies in Oceanography*.

If you're interested to submit your manuscript to the Symposium Special Issue, please let the Symposium Secretariat know by filling out the Form at:

<https://imber.ceotr.ca/machform/view.php?id=106754>

If you're ready to submit your manuscript, here are the instructions and terms:

- The submission website for this journal is located at:
<https://www.editorialmanager.com/dsr2/default1.aspx>
- The special issue, in a two-volume set, are under development. To ensure that all manuscripts are correctly identified for inclusion into the special issue, please select **VSI: IMBeR West Pacific Symp1** or **VSI: IMBeR West Pacific Symp2** (see the difference as below) when you reach the "Article Type" step in <https://www.editorialmanager.com/dsr2/default1.aspx> during the submission process.

VSI: IMBeR West Pacific Symp1 volume collects manuscripts from topics on: Coastal Blue Carbon (Session 1), Coral Reefs (Session 2), Dried Small Fish (Session 3), and Oceanic Top Predators (Session 7)

VSI: IMBeR West Pacific Symp2 volume collects manuscripts from topics on: Ecosystem-Social Interactions in Coastal Sea (Session 4), Marine Biogeochemistry and Biodiversity in Indo-Pacific Region (Session 5), Marine Extreme Events (Session 6), and Ecosystem, Biogeochemistry and Interventions (Session 8)

- In order to facilitate a timely publication schedule, the proposed deadline for all manuscripts to be submitted to the Journal's electronic submission system is **26-May-2022**.
- Every author must submit a declaration of competing interests, together with a statement for each article specifying all funding sources for the study (such as pharmaceutical companies or medical communications agencies).

- If any material from third parties is incorporated in the Special Issue, the author shall have procured prior to the date of manuscript delivery, at the author's expense, permission in writing from each copyright holder of such material to use such material in the manuscript. All previously published material shall be fully acknowledged in the manuscript.

We hope to receive your manuscript as early as possible before 26-May-2022.

Thanks in advance for your contribution!

Kind regards,

Symposium Organising Committee and Elsevier Team

DEEP-SEA RESEARCH II

Special Issue on IMBeR West Pacific Symp

Guest Editors

Managing Guest Editor:

GiHoon Hong, East China Normal University, China

Guest Editors for VSI: IMBeR West Pacific Symp1 volume:

Jaimie Cleeland, University of Tasmania / Australian Antarctic Division, Australia

Takashi Nakamura, University of the Ryukyus, Japan

Jianwu Tang, East China Normal University, China

Nireka Weeratunge, International Centre for Ethnic Studies, Sri Lanka

Thamasak Yeemin, Ramkhamhaeng University, Thailand

Guest Editors for VSI: IMBeR West Pacific Symp2 volume:

Alistair Hobday, CSIRO, Australia

Shan Jiang, East China Normal University, China

Su Mei Liu, Ocean University of China, China

Aazani binti Mujahid, University Malaysia Sarawak, Malaysia

Hiroaki Saito, The University of Tokyo, Japan

Suvaluck Satumanatpan, Mahidol University, Thailand

Ying Wu, East China Normal University, China
