

IMBeR

Integrated Marine Biosphere Research

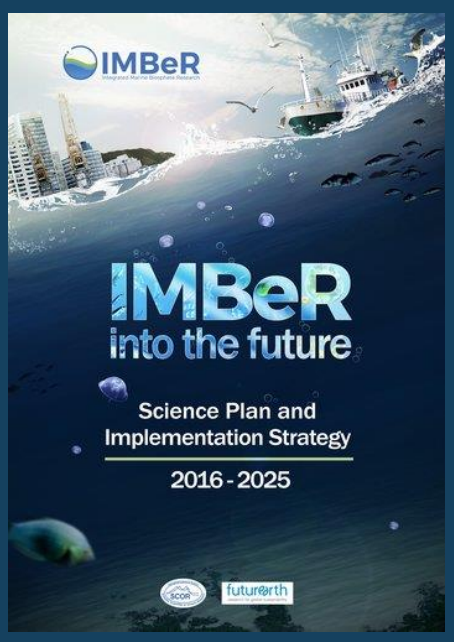

IMBeR is at the forefront of a new and exciting interdisciplinary Marine Biosphere science that reflects the latest thinking in Earth System science;

an international framework for scientists to contact, network, develop new projects, and identify policy-relevant scientific information;

offers scientists global perspectives and broader funding opportunities for their research.

Network of >5200 Ocean Scientists + Professionals from 111 Countries

Science Plan & Implementation Strategy 2016-2025

Regional Programmes + Working Groups

Climate Impacts on Oceanic Top Predators

Ecosystem Studies of Sub-arctic and Arctic Seas

Integrating Climate and Ecosystem Dynamics

Sustained Indian Ocean Biogeochemistry and Ecosystem Research

Continental Margins

Future Earth Coasts

Human Dimensions

Integrated Ocean Carbon Research

IOC-IOCCP, WCRP/CLIVAR, SOLAS, GCP

SOLAS-IMBeR Ocean Acidification

6 Endorsed Projects + 3 Study Groups

Get Involved!

IMECaN Interdisciplinary Marine Early Career Network

Opportunities

Collaboration | Training | Leadership

839 members | 88 countries

IMBeR Young Scholar (IYS) Program

Who can apply: Senior, post-graduate students, and early career researchers in Asia and Africa who lack research resources

How to apply: Any interested individual should submit a one-page application to the IPO-China Office.
