

# Program

---

## SESSION 2: ACHIEVEMENTS FROM IMBER GRAND CHALLENGE 2 AND OPPORTUNITIES FOR IMBER 3.0: FROM SCENARIOS, PREDICTIONS AND PROJECTIONS TO ACTIONS, SOLUTIONS AND INTERVENTIONS

### SESSION 3: BLUE TRANSFORMATIONS: GOVERNANCE FOR THE OCEAN-CLIMATE-BIODIVERSITY NEXUS

---

Wed. 14 May (UTC+8) 15:20 - 17:00 [Click to find your local time](#)

**Convenors** **Rowan Trebilco** and **Derek Armitage**

15:20 - 15:25 [Welcome and Introduction](#)

#### Oral presentations

- |               |   |        |
|---------------|---|--------|
| 15:25 - 15:37 | <b>Ana Cinti</b>  | [3-8]  |
|               | Small-scale fisheries in ecologically sensitive areas in Latin America and the Caribbean: Do Marine Protected Areas benefit fisheries governance? |        |
| 15:37 - 15:49 | <b>Cecilia Engler</b> (online)  | [3-5]  |
|               | Oceans and climate change adaptation: Tracking international law and policy developments and challenges   |        |
| 15:49 - 16:01 | <b>Sophia Jane Buchanan Barlow</b> (online)   | [3-10] |
|               | A sea of relationships: Relational wellbeing in the blue economy  |        |
| 16:01 - 16:13 | <b>Ricardo M. Roura</b>   | [3-1]  |
|               | Southern Ocean marine protected areas and the ocean-climate-biodiversity nexus  |        |
| 16:13 - 16:25 | <b>Guanqiong Ye</b>   | [1-4]  |
|               | Resilience of China's Blue Economy  |        |
| 16:25 - 16:37 | <b>Anil Ramchandra Kurhe</b> (online)   | [1-13] |
|               | Conservation of coastal and estuarine biodiversity: Challenges and opportunities  |        |

#### Speed-Talk presentations

- |               |   |        |
|---------------|---|--------|
| 16:37 - 16:58 | <b>Zarhoun Said</b>   | [4-4]  |
|               | Issues and challenges of governance in the maritime fisheries sector in Morocco: Towards sustainable management of fishery resources (Case of octopus)                          |        |
|               | <b>Taihuan Hu</b>   | [3-7]  |
|               | Morphodynamic characteristics and classification of beaches in Hainan Island and its response to El Nino  |        |
|               | <b>Esther Chacha Wambura</b>  | [1-3]  |
|               | Impacts of ocean acidification on carbonate structures in coral reefs: A sedimentological and bioerosion analysis in Zanzibar   |        |
|               | <b>Aidah Abdul Wahid</b>  | [1-10] |
|               | A comparative study of stock status and sustainable fisheries management of <i>Pomadasys olivaceus</i> across Pakistan's coastlines   |        |
|               | <b>Katylene da Cruz Delgado</b> (online)  | [3-9]  |
|               | Ex-post evaluation of fishery management policies on wild fisheries production in northern Cabo Verde: An example of mackerel scad ( <i>Decapterus macarellus</i> , Carangidae) |        |
|               | <b>Yi Sui</b> (online)  | [4-6]  |
|               | Can collective bargaining overcome institutional arbitrage in international employment? Evidence from China's ocean shipping industry   |        |
|               | <b>Palash Naiya</b> (online)  | [1-28] |
|               | Assessing Socio-environmental impact and rehabilitation measures in response to recent cyclones: perspectives of coastal South Odisha and Indian Sundarbans                     |        |
| 16:58 - 17:00 | <a href="#">Discussion and Conclusions</a>  |        |
