## SESSION 5: ISLAND BIODIVERSITY AND ECOSYSTEM MULTIFUNCTIONALITY IN THE ANTHROPOCENE

---

Wed. 14 May (UTC+8) 10:30 - 12:00 [Click to find your local time](#)

Convenor **Enrong Yan**

Rapporteur **Yuhao Zhao**

10:30 - 10:35 [Welcome and Introduction](#)

### Oral presentations

10:35 - 10:55 **Yu-Jia Lin** [5-1]  
Diversity of the benthic fish communities and spatial patterns of essential fish habitats in the western Taiwan coast

10:55 - 11:15 **Jing Wang** [5-6]  
Decoupling of phosphorus from carbon and nitrogen in long-isolated archipelago soils

11:15 - 11:35 **Chen Zhu** (online) [5-2]  
Interconnecting fragmented forests: Small and mobile birds are cornerstones in the plant-frugivore meta-network

11:35 - 11:55 **Yuhao Zhao** [5-3]  
Land-use change interacts with island biogeography to alter bird community assembly

11:55 - 12:00 [Discussion and Conclusions](#)
